About ELDEN

ELDEN is a new generation Enterprise Resource Planning (ERP) solution developed by MDZ Software and Consulting Ltd.

With its strong infrastructure based on over 25 years of industry experience, process knowledge, and corporate needs analysis, it provides businesses and institutions with the ability to fully control management from a single center by ensuring the seamless integration of all units of the organizations.

Our software is equipped with powerful tools that enable organizations to accurately analyze their needs and develop the most suitable solutions.

ELDEN's advanced tools ensure that ERP applications are implemented quickly and completed with the highest efficiency. Our products have the latest technological features, including artificial intelligence, and have an infrastructure suitable for the integration of future technologies.

ELDEN offers a strong and comprehensive infrastructure that can adapt to businesses of all sizes and both private and public institutions.

OUR MISSION

To provide reliable and innovative software solutions that enable businesses and institutions to use all their resources more effectively, support sustainable growth, and develop user-friendly, scalable, and high-performance systems by accurately analyzing our customers' needs.

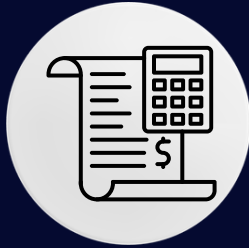

OUR VISION

To be one of the leading ERP brands in Turkey and the global market, preferred for its reliability and innovative approach, guiding digital transformation processes. To offer transparent, efficient and intelligent management infrastructures that can unleash the potential of institutions of all sizes.
